

# CUSTOMER SYSTEMS GUIDE

EFFECTIVE DECEMBER 1, 2017

TESTED. TRUSTED. GUARANTEED.  
AMERICAN MADE

# AGRI-COVER, INC. POLICIES AND CONDITIONS OF SALE

All orders will receive prompt attention.

## **TERMS OF SALE:**

Net 30 days on approved credit. A 1-1/2% per month service charge will be added after 30 days. All accounts that are not able to meet with our terms will be placed on a prepaid basis until paid in full. All amounts are payable in U.S. funds.

## **PRICES:**

All prices are effective at the time the order is processed and are subject to change without prior notice.

## **RETURNED MERCHANDISE:**

No returned merchandise will be accepted without prior authorization. No returns on special orders or used products. All approved returns require a valid RA number (Return Authorization number) and must have customer name and address clearly posted on the outside of the box or shipment will be refused. **MERCHANDISE OUT OVER 30 DAYS IS NOT RETURNABLE.**

## **ROUTING:**

Unless otherwise specified, all orders will be shipped promptly and in the most economical way.

## **TRANSPORTATION TERMS:**

Prices are F.O.B., AGRI-COVER, INC, JAMESTOWN, N.D.

## **DAMAGE OR SHORTAGE:**

Examine all shipments carefully. Claims for damages or shortage must be noted on the BOL and made immediately with the carrier. Parcel Post damages are to be reported to us immediately (photo may be required). Concealed shortage must be made within 10 days.

## **CUSTOMER SERVICE:**

In the event you need assistance with your order, please call our Customer Service Department at 800-233-4655. Our knowledgeable and courteous representatives are available Monday through Friday from 8:00am to 5:00pm CST.

## **CUSTOM PROJECTS:**

If our products do not specifically fit your needs, we can work with you to come up with a solution that will. Note: An engineering and manufacturing fee may be assessed in these situations.

## SUGGESTED PROCEDURES TO PRICE AND ORDER A TARP

### **TARP SYSTEMS**

1. Choose your application: See Table of Contents on Page 3 to direct you to the appropriate application.
2. Choose your system
  - a. Review the tarp system options.
  - b. Use the feature comparison chart (for chosen application) to see which tarp system will best fit your needs.
3. Measure your equipment
  - a. Refer to the diagrams on the box detail sheets located in the back of the book to determine what measurements are needed.
  - b. For best tarp fit, accurate physical measurements are needed.
4. For pricing, kit options and accessories
  - a. Select base price of tarp according to box length measurement. Example: If box length measures over 25'-0" round up to 26'-0" price line.
  - b. Review the options and accessories table to customize your system.
5. Fill out the appropriate box detail sheet completely

### **TO ORDER, SEND COMPLETED BOX DETAIL SHEET TO CUSTOMER SERVICE.**

# ELECTRIC CONVERSION KITS

SRT-2® Electric Spool Roll Tarp

ROLTEC® Electric Tarp Conversion

ROLTEC™ Electric Hopper Conversion

## WHY CHOOSE ELECTRIC?

### ELECTRIC IS THE EASY, CLEAN AND SAFE WAY TO HAUL MORE LOADS IN A DAY!

- Increases safety and efficiency by operating from the cab.
- Easy for anyone to use with the push button operation.
- Saves time while increasing productivity.
- An AGRI-COVER™ Switch and Remote Control provides completely integrated system.
- Increases the resale value of your trailer.

CHOOSING YOUR ELECTRIC TARPING SYSTEM	A. ROLTEC Electric Conversion - Front and Rear Spring Arm	B. ROLTEC Electric Conversion - Front Spring Arm w/ Rear Cable Return	C. SRT-2 Electric Conversion	D. EZ-LOC Electric Conversion w/ Front Cable Return	E. Side Locking Electric Conversion w/ Front Cable Return
Grain Trailer 25'-40'	Best	-	-	Good	Good
Grain Trailer 41'-53'	Best	-	-	-	-
Grain Trailer w/ Rear Discharge	-	Best	-	-	-
Pup Trailer	Best	-	Better	Good	Good
Farm Box	-	-	Best	Better	Good
Grain Cart	-	-	Best	-	-
Seed Tender Trailer	-	-	Best	Better	Good

Good, Better, Best are recommendations based on box applications.

**A. ROLTEC® ELECTRIC CONVERSION - FRONT AND REAR SPRING ARM:** Single motor dual spring arm electric conversion, this system uses front and rear spring arms to convert both 2" steel and 2" aluminum roll tarps into an electric system on trailers up to 53'.

**B. ROLTEC® ELECTRIC CONVERSION - FRONT SPRING ARM WITH REAR CABLE RETURN:** Single spring arm electric conversion kit designed specifically for grain trailers with a rear discharge. This system uses a rear cable return system combined with a front spring arm for grain trailers up to 53'.

**C. SRT-2® ELECTRIC CONVERSION:** Slim single motor arm system designed to fit between the cab and the box of a farm truck, converts a manual SRT-2® Spool Roll Tarp to an electric system using the existing tarps dual, in the tube torsion springs.

**D. EZ-LOC® ELECTRIC CONVERSION WITH FRONT CABLE RETURN:** Single motor arm system with front cable return and rear bungee return, converts your 2" aluminum roll tube to an electric tarping system up to 40'.

**E. SIDE LOCKING ELECTRIC CONVERSION WITH FRONT CABLE RETURN:** Single motor arm system with front cable return and rear bungee return, converts your 2" steel roll tube to an electric tarping system up to 40'.

## WHY CHOOSE WIRELESS?

Avoid tarp damage. Stay in control of your system.

### AGRI-COVER™ SWITCH CONTROL AND REMOTE

- Remote controls 99 devices from more than 100 ft. away or from the comfort of your cab.
- Remote shuts off after three minutes of inactivity.
- Remote and receiver come pre-programmed and are easy to re-program.
- Remote uses an A23 battery.
- Built-in overload protection.
- Receiver complies with IP 66 dust and water standards.
- Prewired with simple connectors, no crimping.
- Corrosion resistant mounting hardware.
- Glove friendly toggle switch.
- Tethered switch with 6 ft. lead available (for wireless box).
- Made in the USA.

AGRI-COVER™ SWITCH CONTROL also available

\*Tethered switch only compatible with Wireless Switch Control Receiver.

# ROLTEC® ELECTRIC TARP CONVERSION KITS

Converts 2" roll tubes to an electric tarping system on trailers up to 53 ft.

- Motor controls the tension of the tarp, when heaped loads settle, touch the switch to tighten the tarp.
- Worm gears create an instant, positive lock with no backing off for a tighter fitting, longer lasting tarp.
- Rotating and telescoping motor mount allows roll tube to rise and flex over heaped loads, reducing stress on the drive components and pivot arm.
- 4 springs create positive return tension when closing the tarp system, no elbows or joints to break.
- Sturdy, lightweight, universal mounting bracket.
- Manual override, simply remove one pin to operate manually, the motor stays secured to roll tube.

# ROLTEC™ ELECTRIC HOPPER CONVERSION KITS

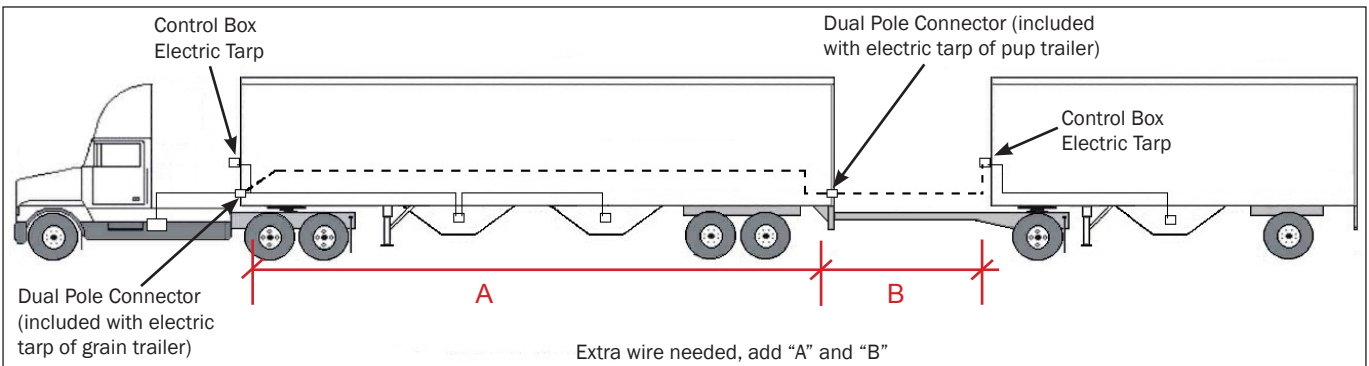

- Worm gear motor and chain drive gear box provide optimal torque needed to open and close the hopper.
- Worm gears create an instant, positive lock. No brakes or limit switch to fail.
- Reliable chain drive system with corrosion resistant, durable metal housing.
- High clearance design installs above factory hardware with a stabilizing arm for a three point mounting system.
- Split sprocket technology eliminates the need to cut the drive shaft in most cases.
- Manual override, if needed.

**ELECTRIC CONVERSIONS**

ROLTEC ELECTRIC HOPPER CONVERSION		
Switch and Remote Control		
Part #	Description	PRICE

80094	1" Round Shaft Conversion	\$21.00 ea.

\*ROLTEC™ Electric Hopper Conversion is designed for 1" round drive shafts, adapter available for other shaft sizes part #80094.

See page 27 for more detail

# SEMI TRAILERS

EZ-LOC® Roll-Up Tarp

AUTOLOCK® Electric Tarp (front)

AUTOLOCK® Electric Tarp (back)

# SEMI TRAILER TARP SYSTEMS

## AUTOLOCK® ELECTRIC TARP

- Motor is constructed of corrosion resistant, durable metal housing.
- Unique DUAL DRIVE™ System has a wind resistant design featuring a strong synthetic cable and tension spring that work together to provide a powerful front and rear drive to cover your load.
- Rotating and telescoping motor mount allows roll tube to rise and flex over heaped loads, reducing stress on the drive components and pivot arm.
- Extra durable 3" aluminum roll tube is strong, yet lightweight offering a faster and straighter roll.

## EZ-LOC® ROLL-UP TARP

- 2" aluminum roll tube is rust resistant and strong, yet lightweight to minimize tarp wear.
- Rope channel design creates uniform tarp tension for a better fitting and longer lasting tarp.
- Custom end caps with crimped standing seam is self sealing and flexible, no welds to break.
- Premium commercial grade, UV resistant vinyl remains flexible at -40° F.
- Quick release aluminum tarp stops.
- Heavy duty zinc plated U-joint with 21 splines for fine tuning tarp tension.

## ROLTEC® SIDE LOCKING TARP

- Custom end caps with crimped standing seam is self sealing and flexible, no welds to break.
- Premium commercial grade, UV resistant vinyl remains flexible at -40° F.
- Front bungee return system assists the operator with pulling action for easier operation when closing the tarp.
- Quick release aluminum tarp stops.
- Heavy duty zinc plated U-joint with 21 splines for fine tuning tarp tension.
- Adjustable crank handle with pinless retainer for an easy in, easy out system that saves time.

## FEATURE COMPARISON CHART

		AUTOLOCK	EZ-LOC	ROLTEC

# FARM TRUCKS, SEED TENDERS AND GRAIN CARTS

EZ-LOC® Roll-Up Tarp

ROLTEC® Side Locking Tarp

SRT-2® Spool Roll Tarp

# FARM TRUCK, SEED TENDER AND GRAIN CART TARP SYSTEMS

## SRT-2® SPOOL ROLL TARP

- Spring loaded spools provide continuous tarp tension while rolling and unrolling, even in windy conditions.
- Tension ratchets allow for fine tuning tarp tension during initial install, no need to adjust.
- Extra durable 3" aluminum roll tube is strong, yet lightweight offering a faster and straighter roll.
- Rope channel design creates uniform tarp tension for a better fitting and longer lasting tarp.
- Telescoping crank handle with flex drive system rolls and unrolls the tarp at many angles with ease.

## EZ-LOC® ROLL-UP TARP

- 2" aluminum roll tube is rust resistant and strong, yet lightweight to minimize tarp wear.
- Rope channel design creates uniform tarp tension for a better fitting and longer lasting tarp.
- Custom end caps with crimped standing seam is self sealing and flexible, no welds to break.
- Premium commercial grade, UV resistant vinyl remains flexible at -40° F.
- Quick release aluminum tarp stops.
- Heavy duty zinc plated U-joint with 21 splines for fine tuning tarp tension.

## ROLTEC® SIDE LOCKING TARP

- Custom end caps with crimped standing seam is self sealing and flexible, no welds to break.
- Premium commercial grade, UV resistant vinyl remains flexible at -40° F.
- Front bungee return system assists the operator with pulling action for easier operation when closing the tarp.
- Quick release aluminum tarp stops.
- Heavy duty zinc plated U-joint with 21 splines for fine tuning tarp tension.
- Adjustable crank handle with pinless retainer for an easy in, easy out system that saves time.

## FEATURE COMPARISON CHART

		SRT-2	EZ-LOC	ROLTEC
End Caps	Material	Galvanized up to 144" wide box Optional - Aluminum less than or equal to 118" box width	Galvanized up to 168" wide box Optional - Aluminum less than or equal to 118" box width	
	Profile	14" deep, with bracket attachment 7" or 12" rise available	14" deep, bolt through attachment 7" or 12" rise available	10" deep, bolt through attachment 7" or 12" rise available
		All end caps have crimped built-in wind deflector and support bow		
	Weather Seal	Included	None	
	Spliced (2 pieces)	On box widths greater than 118"		
Galvanized Bows	Included on farm boxes and grain carts Heavy duty square bows on grain carts greater than 118" in box width			
Ridge Strap(s)	1 ridge strap			
Tarp Stops	Aluminum quick release with integrated set screw on front and rear			
Roll Tube	3" aluminum	2" aluminum	2" galvanized steel	
Tension System	Spring loaded spool, set at install with cable and ratchet on both ends, no adjustment needed	21 spline adjustable zinc plated U-joint crank handle		
Front and Rear Roll Return	Integrated in the tensioning system	Front bungee return Optional - Front spring return Front or rear cable return Rear bungee return		
Tarp Attachment	Rope in channel		Tarp tube clips	
Tarp Construction	Premium commercial grade, UV resistant 18 oz. vinyl fabric Optional - 22 oz. vinyl fabric for EZ-LOC and ROLTEC			
Tarp Colors	Black, white, gray, blue, red, orange, green, yellow and brown Optional - Multi-colored or 22 oz. black, white, gray, blue and red			
Electric Kit	Optional			

## FARM TRUCK, SEED TENDER AND GRAIN CART FEATURES AND BENEFITS

### SRT-2® SPOOL ROLL TARP

- Spring loaded spools
- Tension ratchets
- Extra durable 3" aluminum roll tube
- Telescoping crank handle with flex drive system
- 14" deep, 7" rise galvanized end caps\*
- Quick release aluminum tarp stops
- 18 oz. vinyl
- Galvanized bows
- 1 ridge strap

### EZ-LOC® ROLL-UP TARP

- 2" aluminum roll tube
- 14" deep, 7" rise galvanized end caps\*
- Heavy duty 21 spline U-joint
- 18 oz. vinyl
- Quick release aluminum tarp stops
- Adjustable crank handle with pinless retainer
- Front bungee return system
- 1 ridge strap

### ROLTEC® SIDE LOCKING TARP

- 10" deep, 7" rise galvanized end caps\*
- 18 oz. vinyl
- Quick release aluminum tarp stops
- Heavy duty 21 spline U-joint
- Adjustable crank handle with pinless retainer
- Front bungee return system
- 1 ridge strap
- 2" steel roll tube

\* Farm truck and seed tender end caps are front side mounted and rear top mounted. Grain cart end caps are 12" rise standard and are front and rear side mounted.

# FERTILIZER, CONSTRUCTION AND STAINLESS STEEL

SRT-2® Electric Spool Roll Tarp

AUTOLOCK® Electric Tarp (front)

AUTOLOCK® Electric Tarp (back)

# FERTILIZER AND STAINLESS STEEL TARP SYSTEMS

## SRT-2® SPOOL ROLL TARP

for boxes up to 24' long

- Spring loaded spools provide continuous tarp tension while rolling and unrolling, even in windy conditions.
- Tension ratchets allow for fine tuning tarp tension during initial install, no need to adjust.
- Extra durable 3" aluminum roll tube is strong, yet lightweight offering a faster and straighter roll.
- Rope channel design creates uniform tarp tension for a better fitting and longer lasting tarp.
- Telescoping crank handle with flex drive system rolls and unrolls the tarp at many angles with ease.

## AUTOLOCK® ELECTRIC TARP

for boxes 18' to 53' long

- Motor is constructed of corrosion resistant, durable metal housing.
- Unique DUAL DRIVE™ System has a wind resistant design featuring a strong synthetic cable and tension spring that work together to provide a powerful front and rear drive to cover your load.
- Rotating and telescoping motor mount allows roll tube to rise and flex over heaped loads, reducing stress on the drive components and pivot arm.
- Extra durable 3" aluminum roll tube is strong, yet lightweight offering a faster and straighter roll.

## EZ-LOC® ROLL-UP TARP

for boxes up to 53' long

- 2" aluminum roll tube is rust resistant and strong, yet lightweight to minimize tarp wear.
- Rope channel design creates uniform tarp tension for a better fitting and longer lasting tarp.
- Custom end caps with crimped standing seam is self sealing and flexible, no welds to break.
- Premium commercial grade, UV resistant vinyl remains flexible at -40° F.
- Quick release aluminum tarp stops.
- Heavy duty stainless steel U-joint with 21 splines for fine tuning tarp tension.

**BOX DETAIL SHEETS**

# STAINLESS STEEL BOX DETAIL SHEET FOR SRT-2® SPOOL ROLL TARP

**Please complete form thoroughly.**

Missing information may delay order processing.

Date: \_\_\_\_\_

ACI Sales Representative: \_\_\_\_\_

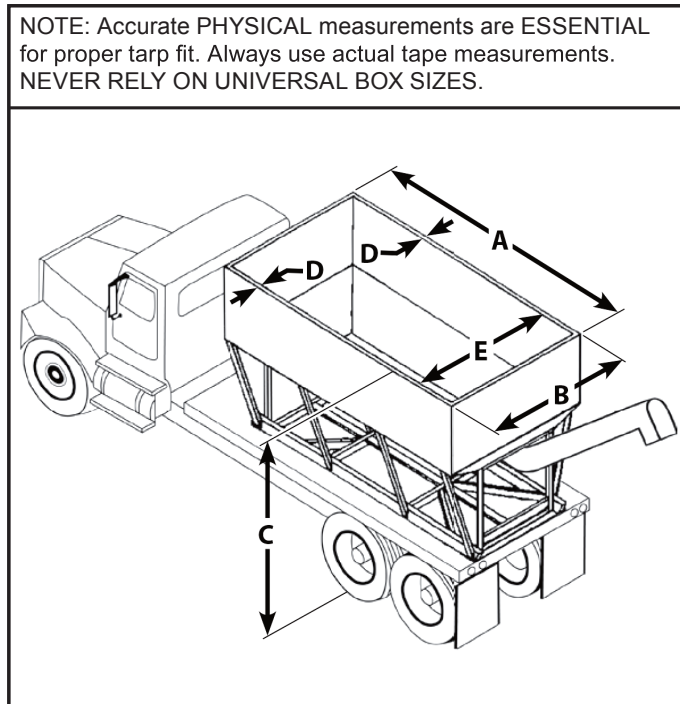

**Phone** 800-233-4655

**Fax** 800-592-4460

**Email** orderdesk@agricover.com

**Mail** PO BOX 508

Jamestown, ND 58402

**IMPORTANT:**

- Manual crank handle will not work on air systems with rear manifold distributor.
- Manual crank handle will work on most spinner spreaders.
- AirMax/Loral may need an extension so tarp will roll over far enough to seal, boom rests may need minor modification to clear.
- Ag Chem Spreaders with inside granular bins require a special rear cap, set back 6".
- Loral units with rear granular attachment utilize same front and rear cap.

**DRAIN HOLES** (Part # 90753 \$5.20 per hole )

NOTE: Brass grommet with an inside diameter of 1/2"

### Choose all that apply

Measure all dimensions from box edge

Measure all dimensions from tarp edge

Top Outside Box Width \_\_\_\_\_ (This dimension is needed for both new and replacement tarps)

**MUST CHOOSE ONE OF THE FOLLOWING:** Top outside box width and end cap rise are needed to ensure drain holes are centered on box.

Flat end cap (drain holes will be centered on box)

7" rise end cap (drain holes will be centered on box)

12" rise end cap (drain holes will be centered on box)

Customer defined location: (please provide Dimension (A) see diagram below): Dimension (A) \_\_\_\_\_

NOTE: If Customer defines location, Dimension (A) will be translated directly to the finished tarp from the edge of the stationary tube. It will not take into consideration the width of box or the rise of end caps. Drain holes may not end up in the center of the box.

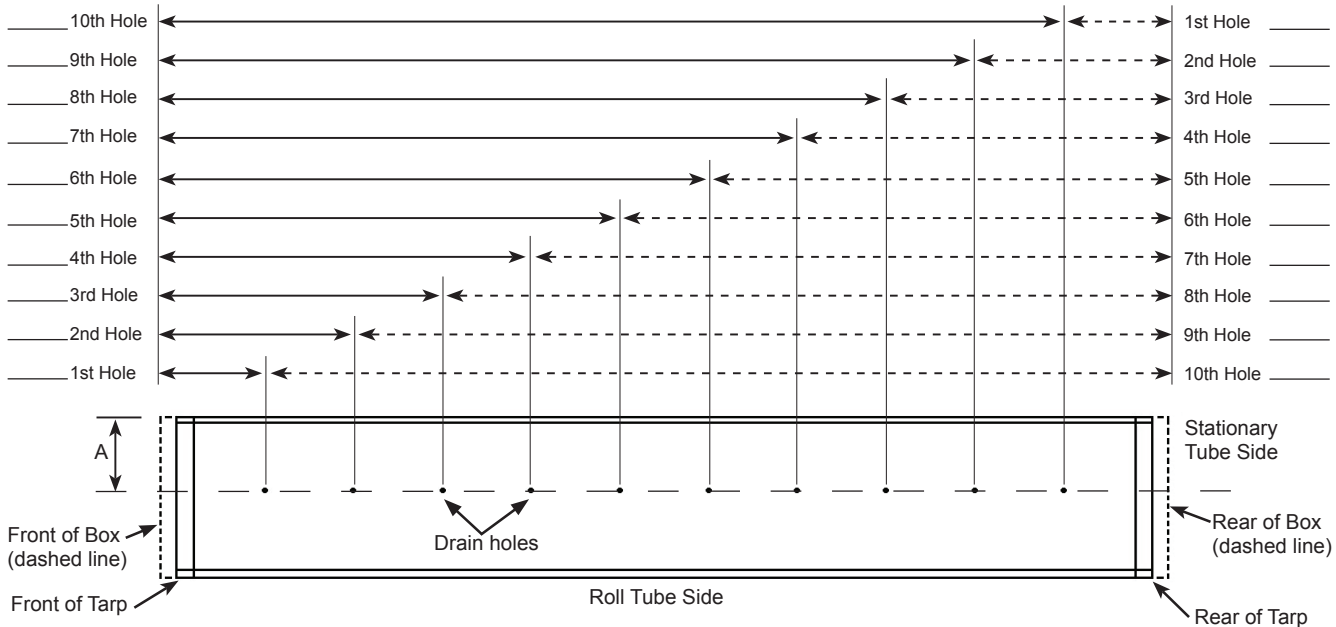

QTY of Drain Holes (up to 10) \_\_\_\_\_ (Fill in dimensions below in inches, round to nearest inch)

NOTE: If drain holes are not defined by the customer, AGRI-COVER will place them evenly spaced throughout the length of the tarp.

### LOCATIONS OF DRAIN HOLES

Standard Roll Application measure from front of end cap (solid line below)

Reverse Roll Application measure from rear of end cap (dashed line below)
