⚠ WARNING

The ADATRAC™ Accessory Tracks have a load capacity of 75 lbs., evenly distributed on ADARAC™ System including accessories. Always secure cargo properly. Failure to secure cargo or hauling inappropriate cargo may result in personal injury or death. Agri-Cover, Inc. is not responsible for any property damage, personal injury or death incurred while using any Agri-Cover, Inc. product.

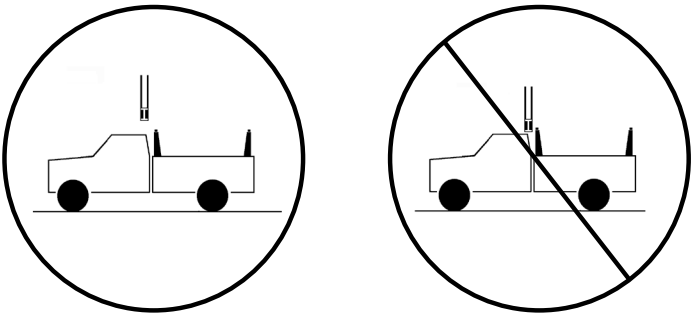
⚠ CAUTION

These products are only intended for transporting cargo evenly distributed on an ADARAC™ System including accessories. It is the responsibility of the user to secure these materials to the rack before transporting. Never load your rack to exceed the safe capacity of your vehicle.

Consult your vehicle's owner's manual for specifications on load ratings and recommendations for installation of aftermarket racks. Never exceed the lower load rating. Heavy loads when carried high can dangerously alter the center of gravity of your vehicle. Any modifications made to this product or use of this product for any other purpose than its intended use could create a hazardous condition that can cause serious personal injury or property damage.

NOTE

Before entering low clearance areas, check height and width clearance to ensure safe entry (empty or loaded).



NOTICE

Any modification or unintended use of this product shall immediately void all manufacturer's warranties. Manufacturer disclaims all liability for injuries to persons or property resulting from any modification to or unintended use of this product.

NOTE: Installation and use of any box rail mounted accessory may cause minor aesthetic damage to exterior of vehicle. Agri-Cover, Inc. makes no claims or warranties as to a particular vehicle's ability to support rail mounted accessories without incurring damage. See your vehicle manufacturer’s specifications for bed rail mounted accessories.

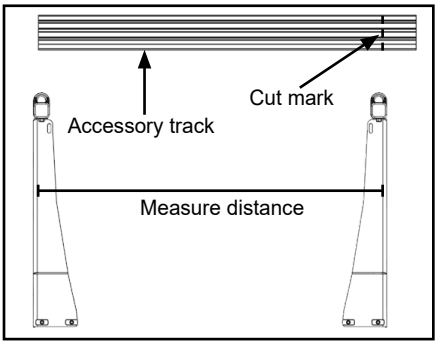
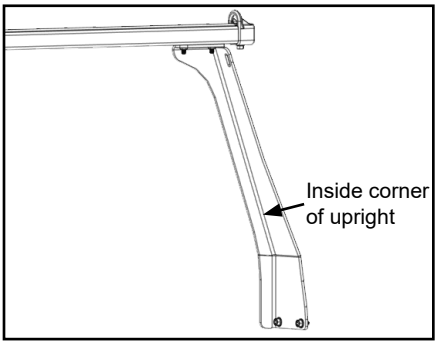
1: INSTALLING ACCESSORY TRACKS

IMPORTANT: Before beginning installation ensure uprights are in desired location.

A. Measure distance between inside corners of uprights, then mark accessory track and cut at mark if needed.

NOTE: Straight vertical corner of Pro Series uprights should be facing toward outside of box.





B. On one side, determine desired mounting location of accessory track and perform one of the following:

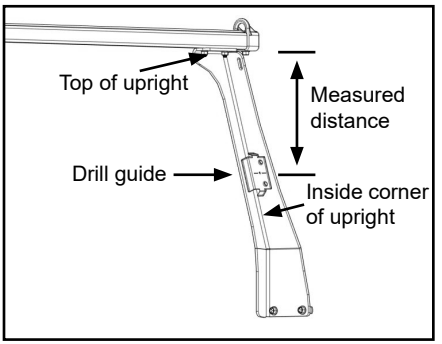
Install on inside of uprights

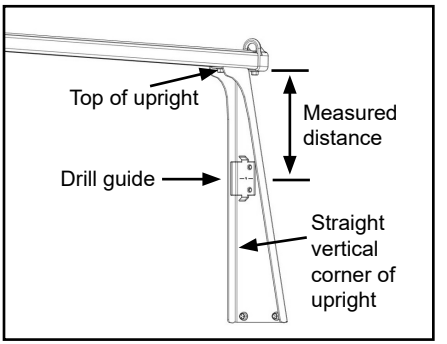
Place drill guide flush with inner upright corner or if installing on M-Series place vertical toward outer edge of upright, then measure from top of upright to center line on drill guide.

Install on outside of uprights

Place drill guide flush with straight vertical upright corner or if installing on M-Series place vertical toward outer edge of upright, then measure from top of upright to center line on drill guide.

IMPORTANT: If installing on outside of uprights, End Cap Kit is required (PN 4007506). Pro Series can only be installed on the outside of uprights.





1: INSTALLING ACCESSORY TRACKS (Continued)

C. Mark holes, then drill 13/32" holes through upright.

D. Repeat for opposite upright.

Tip: To prevent scratching or gouging, insert cardboard between upright and clamp.

NOTE: If installing on inside of uprights, insert appropriate square nuts in accessory track for installing add on accessories.

IMPORTANT: Ensure top and bottom nut channels are properly lined up with holes before drilling.

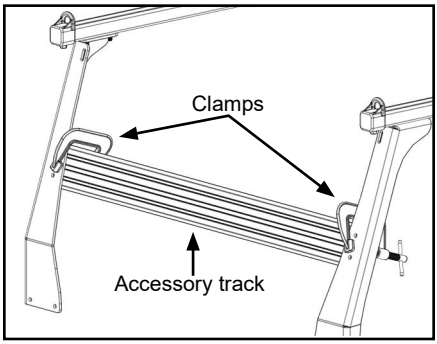
E. Center accessory track on uprights ensuring accessory track is level, then clamp in place. Perform one of the following:

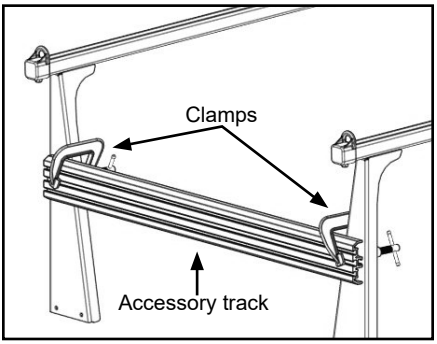
Install on inside of uprights

Drill from outside of upright using previously drilled holes through top and bottom nut channels of accessory track.

Install on outside of uprights

Drill from inside of upright using previously drilled holes through top and bottom nut channels of accessory track.





1: INSTALLING ACCESSORY TRACKS (Continued)

F. Secure accessory track with bolts and nylock flange nuts, ensure nuts are on inside of uprights. Torque bolts to 32 ft-lbs.

NOTE: If installing on outside of uprights, use longer bolts in End Cap Kit.

G. Repeat for opposite side, remove clamps.

H. Repeat Steps 1A-G for remaining accessory tracks.

NOTE: If installed on outside of uprights, proceed to end cap installation.
