

ROLL UP TRUCK BOX COVER SPECIAL SIDE RAIL INSTRUCTIONS

2007-ON TOYOTA TUNDRA WITH DECK RAIL

Read and follow these special instructions along with the standard instructions carefully before installing or using this cover.

NOTICE TO INSTALLER: Even if familiar with product, read special instructions prior to installation as improvements may be made without notice. Always handle components with care. When done, these special instructions must be given to the consumer.

NOTICE TO CONSUMER: Before using this product, read special instructions. Save these special instructions for future reference.

PREPARATION

TOOLS NEEDED

- (1) Foot-pound torque wrench with 1/2" socket
- (1) Protective eyewear
- (1) 1/2" Wrench

⚠ CAUTION: Over torquing hardware may damage components. Do not use impact tools.

1. REMOVING EXISTING HARDWARE

A. Remove deck rail plug closest to tailgate. If tie down clasps are on deck rail, loosen and remove for now.

2. INSTALLING SIDE RAILS

A. When inserted into deck rail, position pre-assembled clamps and hardware as illustrated.

B. Refer to standard instructions for clamp position and quantity.

NOTE: For trucks equipped with tie down clasps, locate them as desired between clamps.

C. Replace deck rail plug.

D. Place side rail between clamps and inside lip of box until it rests on deck rail. Use standard instructions for the correct height and position of side rail.

E. Hold side rail level and clamp assembly as shown and tighten clamps. When tight, clamps should hold side rail level.

F. Repeat Steps 1 and 2 to install side rail on opposite side.

G. Torque all clamp bolts to 25 ft-lbs.

H. **For remaining cover installation, refer to standard instructions**
